Safety and Quality for the Daily Driver

L/C=DCH
1 year warranty

Lower Ball Joints

Stabilizer Links

Tie Rod Ends

Control Arms

Design is our **advantage**

Factory sealed high quality boots provide the most complete protection against contaminants

Precision forged housing with anti-corrosion coating

OE grade hardware included

LOW FRICTION DESIGNS

Highly polished ball for smooth steering and ease of wheel turn

Restores OE handling characteristics

METAL ON METAL DESIGNS

Handles the high loads of excessive service requirements

Provides high rotational torque

Greasable for long life

PREMIUM

EXTENDED LIFE CHASSIS PARTS

Make Way for the New Standard

Dorman's Premium Chassis line consists of high quality components that are certified to replace the specified applications

L/C=DPR
5 year warranty

Dorman utilizes XL technology to meet the exacting performance requirements on select applications denoted by an "XL" suffix on the part number

- Low friction bearings maintain a vehicle's original steering and handling without adding resistance into a vehicle's steering or suspension systems
- Feature high quality components matched to the OEM design for easy installation and an extended service life
- Maintenance Free Design

XL Technology Advantages

Exclusive Premium ArmourGrade™ Studs
ArmourGrade coating provides corrosion resistance against harsh environments

Exclusive Premium EverSmooth™ Ball Finish

EverSmooth Finish reduces the amount of torque required to initially move the stud after and contributes to increased durability

Exclusive Premium UltraFlow™ Normalized Forged Housing

UltraFlow Housing insures small material grain size and maximize part durability

Exclusive Premium I.C.E.™ Grease

I.C.E Grease improves seal, keeps contaminants out and improves socket lubrication

PREMIUM RD

RUGGED DESIGN CHASSIS PARTS

Engineered to Work Harder

L/C=DPR
5 year warranty

Premium RD are heavy-duty chassis parts designed for working trucks

- Built for trucks that go over the limit. Trucks that tow more, carry more, and push more than the others
- Every step of the way, Premium RD has been specially designed to hold up under the toughest abuse
- Greasable/Serviceable design for maximum durability under heavy loads. *Regular maintenance required.*

Premium RD Advantages

Exclusive Premium ArmourGrade™ Studs
ArmourGrade coating provides corrosion resistance against harsh environments

Exclusive Premium Larger High-Polish Ball

A larger ball surface distributes the load over a wider area, increasing durability and longevity under severe conditions

Exclusive Premium IntegraFit™ Integrated Bearing Design

An exclusive premium hardening process allows us to eliminate the separate bearing and use a larger premium ball

Exclusive Premium I.C.E.™ Grease

I.C.E Grease improves seal, keeps contaminants out and improves socket lubrication
